AND APPLICATIONS,VOLUME 6,2004**

Table of Contents Journal of Computational Analysis and  
Applications, Vol.6, No.1, 2004

- 1)"Density and Approximation properties of Weak Markov systems", A.L.Gonzalez, R.A.Zalik, .....5
- 2)"Interpolating scaling functions with duals", S.Dahlke, P.Maass, G.Teschke, .19
- 3)"On the interference of the weight and boundary contour for orthogonal polynomials over the region", F.G.Abdullayev, .....31
- 4)"The properties of the orthogonal polynomials with weight having singularity on the boundary contour",  
F.G.Abdullayev, .....43
- 5)"Dual Riesz bases and the canonical operator", H.A.De Pasquale, .....61
- 6)"Beyond the Monomiality:the Monumbrality principle",  
G.Dattoli, P.E.Ricci, C.Cesarano, .....77
- 7)"Distribution of eigenvalues in gaps of the essential spectrum of Sturm-Liouville operators-a numerical approach", B.M.Brown, M.S.P.Eastham, A.M.Hinz, K.M.Schmidt, .....85

Table of Contents Journal of Computational Analysis and Applications Vol.6,No.2,2004

1)"A study of the Laguerre-Hahn affine functionals on the unit circle",A.Cachafeiro,C.Perez,.....	107
2)"Convolution of Fuzzy Multifunctions and Applications",I.Beg,.....	125
3)"On the solutions of a differential equation with arbitrary large zeros number",R.Vrabel,.....	139
4)"A note on Szego's theorem",M.N.N.Namboodiri,S.Ramadevi,.....	147
5)"Exponential decay of 2x2 operator matrix semigroups",A.Batkai,K.J.Engel,.....	153
6)"Sharp evaluation of the Prokhorov distance to zero under general moment conditions",T.Rychlik,.....	165
7)"Asymptotic stability of linear difference equations of advanced type",F.Dannan,S.Elaydi,.....	173

Table of Contents J.of Computational Analysis and Applications,Vol.6,No.3,2004.

1)"The Hilbert transform of almost periodic functions and distributions",J.Pandey,..	199
2)"On the convergence of Fourier means and interpolation means",K.Runovski,H.Schmeisser,.....	211
3)"Admissibility of time-varying observations for time-varying systems",A.Idrissi,A.Rhandi,.....	229
4)"Numerical solution of linear multi-term initial value problems of fractional order",K.Diethelm,Y.Luchko,.....	243
5)"Differential equations of some classes of special functions via the factorization method",M.He,P.Ricci,.....	265
6)"On the existence and non-uniqueness of solutions of the modified Falkner-Skan equation",F.Allan,.....	277

Table of Contents J.of Computational Analysis and Applications,Vol.6,No.4,2004

1)"On the construction of de la Vallee Poussin means for orthogonal polynomials using convolution structures",F.Filbir, W.Themistoclakis,.....	297
2)"Convergence theorems of the Ishikawa iterative scheme for asymptotically pseudo-contractive mappings in Banach spaces", S.Chang,J.Park,Y.Cho,I.Jung,.....	313
3)"Inequalities involving mappings associated to Hadamard's inequalities",Y.Cho,M.Matic,J.Pecaric,.....	323
4)"A bivariate shape-preserving quasi-interpolant method with positive compactly supported bases", C.Conti,R.Morandi,.....	335
5)"On the Approximation error in Langrange Interpolation on equal intervals",A.Eisinberg,G.Franze,P.Pugliese,M.Ruffolo,.....	349
6)"A strong Balian-Low theorem",Y.Liu,.....	357
7)"The spectrum of functions defined on $R^+$ ;application to Functional Equations",A.Hamza,.....	369
